CARTER HARRISON'S NEW PLANS

HE BUYS "THE CHICAGO TIMES" TO BOOM HIMSELF FOR PRESIDENT.

THE CHICAGO EX-MAYOR COQUETTING WITH THE PEOPLE'S PARTY-READY TO PUNISH HIS

OLD DEMOCRATIC ENEMIES. Chicago, Oct. 10 (special) -The announcement made to-day that "The Chicago Times" is about to pass into the control of Carter H. Harrison, Chicago's ex-Mayor, ex-Congressman, and just now an aspirant for the Presidential nomination of the People's party. The consideration is said to be \$400,000 for the entire plant and good-will, the building being the property of Bauher Elodgett, of Grand Rupids, Mich. A veritable sensation has been created by the reports that this somewhat pyrotechnic statesman and millionaire is to purchase "The Times," and a lively time is anticipated in the newspaper world. General con-sternation is created in the ranks of aspiring Demoeratic leaders of Illinois, as Mr. Harrison's recent re nunciation of that party and establishment of an In-Expendent Democracy with free silver, Sunday beer, and protection to American industries as their shibboleth is not forgotten. Of course with Carter H. Harrison in control of the senior Democratic organ of the State, the only result can be a forever divided Democracy or a Bourbon party entirely dominated by Chicago's great ex-Mayor. For ten years Carter Harrison and his adherents have divided or disturbed every Democratic state convention of Hilnois meant defeat to the Democrats of the Nation is re-called by its verification. For many years Carter H. Harrison and William R. Morrison have been the antitheses of Illinois Democracy, and the leap into Free-Trader will not have the instructions of the IIincis delegation to the National Convention next year. It is but six years since the followers of Harrison prevented Morrison's election to the United States Sen-ate at Springfield, and, by prolonging the contest, finally made it possible for the Republicans to re-clect

another enemy high in the leadership of the Democratic party, State and National, whom Carter Harrison desires to punish. That man is John M. Palmer, new United States Senator from Illinois, and the gentleman who caused Harrison's defeat in the Mayoralty contest hist spring. After Harrison had bolted the Democratic city convention, which re-nominated Cregier, and his followers had met separately and nominated Harrison for Mayor, the friends of Mr. Harrison warned Schator Palmer that he must not interfere in the local contest. Paimer ignored the Harrison wing of so-called Democracy, and responding to the instances of Cregier and the machine Democracy, came to Chicago and devoted a week to denounce Harrison as a renegade, endeavoring to recall his followers to the Democratic Harrison's strength, as subsequently developed at the polls, was a revelution to all parties and all estimates which previous elections might have justified. It showed that, but for Palmer's interference, Carter H. Harrison would now be Mayor of Chicago and the poll-books would mark his majority at 10,000. This interference in Chicago politics, or, as Harrison puts it, "violation of the principles of Home Bule," will be bitterly regretted by the new Senator

are the spring conventions meet. To personal friends, Carter Harrison has announced that it is his intention to make "The Times" the most enterprising paper in the West, and his great wealth makes this quite possible. Latterly the "Protection" makes this quite possible. Latterly the "Protection" views of Mr. Harrison have undergone some modification, so much so, in fact, that he is quite able fo ride any mule in the political hippodrome, and is now coquetting with Jerry Simpson. Farmer-Senator Pfeffer and the leaders of the Union. Labor, and various other leterogeneous organizations for the Presidential nomination next spring at the hands of the People's party. While Harrison is vigorously paying of old scores on the extwihile Democratic opponents, it is fair to presime that the somewhat proverbial exotism of the example of the example of the parties frequently that all the librile com-

THE ULSTER COUNTY SAVINGS BANK.

NICTOLAS E. BROADHEAD CONFIRMED AS RE-CEIVER-THE JUDGE OVERRULES THE OPPOSITION.

Kingston, N. Y., Oct. 10 (Special).-The opposition to Nicholas E. Broadhead as receiver of the Ulster County Savings Bank came up on an order to show anagement, he having been trustee and vice-president for over two years and lately treasurer; also that the Attorney-General was enjoined from obtaining the order without notice to the plaintiff. Counsel urged that Broadhead, having found a defalcation of \$75,000, joined in signing a statement to the effect that the bank was sound and solvent relying upon the representation of the prisoner Trampbour. Judge Fursman, after explaining the circumstaces of his appointment, intimated that unless some better remon for his removal was presented be should adhere to the selection. After argument by counsel the court denied the request for postponement and confirmed the appolutment of Broadhead, as no represen had been east upon him and he could not stamp him as dishonest or incompetent upon mere conjecture. Frederick L. Westerook has been retained as counsel for the prisoner Ostrander and David M. Dewitt for Trumptour.

BUYERS THINK PRICES ARE TOO HIGH.

OWNERS OF REAL ESTATE NOT YET ABLE TO MAKE MANY SALES.

The real estate market exhibits dulness as its prevailing feature. Buyers are repelled by the high prices asked by owners, and brokers find it hard to reconcile the opposite views. New business is light and "The Real Estate Record and Chronicle" sums

up the situation as follows:

Brokers and real estate men generally are trying to Brokers and real estats men generally are trying to keep up one another's courage as to the prospects of a busy season during the remaining months of the year, but it is rather a hard task that they have set themselves, substantial results bearing out the bright views that have been in the recent past and that even at the present time are being expressed more or less freely are lacking. There is, of course, business being done, but its neither large nor important, and while the talk about the large deals that are underway continues it is impossible to obtain definite information in regard to them. The large list of sales which we were enabled to present last week is more or less misleading. After closely inquiring we find that what appeared as last week's work really dated back for some time, several of the negotiations having been togun as far back as five months ago. While this does not take away the sufficient that accompanies actual consummation of the transactions it is still to be regretted that so linie of it was really new business. As to the gener afficiatives of the market there is little new to report. Owners of all kinds of property continue firm in their asking prices, which namerous. In the money market it is still difficult to place loans on flat property, although private-house mortgagees are more early secured.

The conveyances last week numbered 214, interesting the conveyances has week numbered 214, interesting the conveyances are more early secured.

The conveyances last week numbered 214, involving \$3,552,031, as compared with 218, involving volving \$3,552,031, as compared with 218, involving \$3,612,375, in the same week of 1890, and 181, involving \$1,999,385, in 1888. The mortgages recorded numbered 232, involving \$2,381,420, against 240, involving \$2,812,699, in 1890, and 218, involving \$3,195,430, in 1889. There were sixty-three new yilldings projected last week at the estimated cost of \$1,179,700 in 1890, and fifty-cight, involving \$1,178,728, in-4890, and fifty-cight, involving \$1,178,728, in-4890.

MARRIED ON HER DEATH-BED.

Boston, Oct. 10 (Special).-A young woman named Norcross, living in Somerville, was married at 3 o'clock last Tuesday morning to L. V. Rollins, traveller for a New-York hardware house. At 1:30 on the same after noon she was dead. The couple, says "The Record," met four or five summers ago in the main town of Charleston, and an engagement was made.

A week before the day she died, Miss Norcross was taken with a severe cold, which increased with terrible swiftness until Monday night, when her physician broke the news to her that she could not live. Her flance was by the side of her deathbed, and in acfiance was by the side of her deathbed, and in accordance with her wishes the Rev. A. E. Winship was hastily summoned to the sad nuptials. Then her will disposing of \$100,000 was drawn and witnessed by the clergyman, her physician and an attendant. The bulk of her property was left to her husband, the remainder going to the Charleston Academy. "It is remainder going to the Charleston Academy. "It is remainder going to the Charleston Academy. "It is not the sort of a wedding we had planned," she said, and smiled theoursgement upon those who surrounded her bed. From this time she gradually sank, and passed away just ten hours after the ceremony was performed.

Her father was a well-known resident of Somerville. About twenty years ago he retired from business, and up to the time of his death was interested in lumber pursuits.

CONDITIONS OF THE CROPS.

PINE WEATHER IN KANSAS-DISCOURAGING RE-PORTS FROM NORTH DAKOTA.

Chicago, Oct. 10 (Special.)-General crop reports show that the only portion of the surplus grain areas of the country to-day where there is any excess of moisture is in the extreme Northwest. The first killing frost came this week, but of course too late to do any damage to any crop. Pastures and meadows are poor and afford little if any feed to stock. Hence all over the corn belt farmers are feeding both hav and new corn to their stock. Texas reports that, as seeding of winter wheat with them has only now fairly begun, they have not felt any effects of the drouth. Everything in that State points to a decided increase in the acreage. Farmers have been and are still selling their wheat. New corn is being gathered, and the crop in quantity and quality is not up to an average. In Tennessee, owing to dry weather, farmers have seeded little winter wheat; probably not one-third of the crop has been sown has affected the seeding materially; probably not ever half the crop is sown. Rains have fallen during the present week, which have helped farmers materially. In eastern Kansas they have had plenty of rair and cold weather, and are busy seeding. In southern Kausas the recent rains have been a wonderful bene-it to the ground, and farmers have been busy seeding: probably half of the usual acreage will be in this Wheat that was sown early is now coming up. Northern Missouri, rains the present week have put the ground in fair shape, and farmers are generally sowing. Not much wheat is moving and mills generally hold light stocks. Much of the wheat that moved was of poor grade and went East. In onthern Missouri copious rains have enabled farmers

seeding of winter wheat has been active the pr week in southern Illinois. In central Illinois threefourths of all the wheat that will go into the ground this season has now been seeded. The rains of the last week have started it and it is now coming through the ground. In northern Indiana the drouth in some regions is having a had effect upon the growing wheat. The showers this week have only laid the dust and soaking rains are greatly needed. In central Indiana cause why his appointment should not be vacated or the drouth has not been so severe. The usual amount set aside before Justice Fursman here to-day. The of wheat has been seeded and wheat is all coming up the drouth has not been so severe. The usual amount motion is in behalf of Mary J. Preper, a depositor in and making a good stand. Farmers are generally hold-the broken bank. The grounds of the opposition to ing their wheat for a dollar a bushel. The drouth ing their wheat for a dollar a bushel. The drouth has been broken in southern Indiana by good rains. In northern Ohio the drouth was finally broken by rains Monday, going down into the ground about three inches. Some areas of wheat sown about September 15 will have to be reseeded. There are a good many complaints of dry weather doing considerable damage to the growing crop on the highlands, while on bottom lands wheat looks very well. In southern Ohlo reports also show that the early sown wheat has been more or less injured by dry weather and the Hessian fly. Many of the farmers are reseeding their

The reports from North Dakota are still discouraging with regard to the condition of the crop and the searcity of laboring men and threshing machines. Men get tired of waiting for better weather and leave the country. Fully 25 per cent of the crop in that porion of the State is badly damaged. On account of the scarcity of help since harvest little stacking has been scarcity of help since harvest little stacking has been done. There will be grain unthreshed January 1, even if the rains cease at once. In southern Dahota from 30 to 50 per cent of the wheat is now threshed. In some sections the scarcity of labor still exists. In southern Minnesota the bulk of the spring wheat has been threshed and many threshing outfits are going to Dakota to do threshing there.

OFFICIAL ESTIMATES OF THE YIELD. Washington, Oct. 10.—The October report of the statistician of the Department of Agriculture relates to yields per acre of grain, and condition of corn, po-tatoes, buckwheat and tobacco. The estimated average yields are: Wheat, 15 bushels; oats, 29.3; barley, 25.8; rye, 14.4. The condition of the corn crop is 92.5 bushels; buckwheat, 92.7; potatoes, 91.3; tobacco, The yield of wheat in threshing has in most districts proved nigher than the apparent condition of the crop at harvesting would indicate. In the Ohio Valley states and in the spring wheat region the exceptional individual yields have been more numerous than usual, carrying the State average to the verge of the best records of former years. The averages of the Middle States are nearly as high. California presents a disappointing output, a large area having been cut for hay, and some districts, notably in the San Joaquin Valley, return reduced yields that are nearly failures The average yields of oats are higher than the early eturns of condition would indicate, though that of hast month showing condition when harvested was the highest for several years, slightly above the record for 1889. Outs have evidently shared the beneficent influences of the present season, yielding quite up to the popular expectation. The same may be said of The corn crop, very promising last month, though a little late, in danger of frosts above the latitude of 40 degrees, and somewhat injured already in more northern districts, has improved during the month, as the result of the high temperature of the ast two or three weeks. A good crop is assured. Potatoes, which were in some sections threatened with rot on the 1st of September, have come through the month in good condition, with a loss of only half a point. There was a slight lowering of condition in Maine, and in some States an improvement was made. The average condition of tobacco was materially advanced during September by the line weather for

UNFAVORABLE CONDITION OF THE COTTON CROP. Washington, Oct. 10.—The October cotton report of Department of Agriculture shows the general average of the condition of cotton to be 75.7, against 82.7 n month ago. Last year in October it was 80. Besides this unfortunate difference in condition, the crop is late this year, and the chances are against a repetition of last year's extraordinary length of season of growth. The average condition by States is as follows: Virginia, 72; North Carolina, 70; South Carolina, 72; Georgia, 78; Florida, 74; Alabama, 76; Mississippi, 74; Louisiana, 79; Texas, 78; Arkansas, 76; Tennessee, 70.

The Atlantic coast breadth has suffered more from adverse conditions than the Gulf coast areas. Excess

of moisture in August and early in September, with

drouth and high temperature later, tested the vi-

drouth and high temperature later, tested the vi-tality of the plants of the coast region severely, causing shedding of leaves and boils, premature open-ing and slight yield. West of Mississippi there was a variable record of moisture. There are insect losses, somewhat general though not unusual or very heavy, through most of the cotton belt.

Ladies' London-made Jackets, Paletots and Newmarkets.

The latest novelties in Ladies' London-made Walking Jackets, Paletots and Newmarkets, specially designed for and controlled by us, will be shown in connection with our general importations of the same classes of Garments Monday and during the week. We offer them at exceptionally

Ladies' Imported Capes.

Our assortment of Ladies' Imported Capes com prises over 500 separate designs from the leading fashionable makers of Paris, Berlin, and London They range from a graceful, handsomely trimmed Cape at a moderate price to the richest and most costly produced by Pingat, Ulliac, Gillies, Abel, and the other great Parisian artists in mantles.

Ladies' Paris Costumes.

We invite visits of inspection of our magnificent collection of Paris Costumes, which we are offering at much less than Paris retail prices. There are over one hundred styles, not one of which is in duplicate.

Fur Department.

This week we offer Special Bargains in Ladies Seal and Fur-lined Garments, and Fur Capes in all the various lengths and in all fashionable Furs; Collars, Scarfs, Boas, Muffs, &c. As the very low prices at which we are now selling Fur Garments and Fur Articles cannot be maintained later in the season, we advise intending purchasers to make their selections at once.

Misses' Cloaks and Suits.

The increase in the business of this Department has made it necessary for us to give it double the space formerly occupied. This increased room enables us to show an enormous stock of Cloaks and Suits for dress, school and street wear much more satisfactorily to purchasers. Our prices this season are lower than ever, while yet. In northern Kentucky the long continued drouth the standard of the goods is in advance of all previous seasons.

We make no charge for altering either Ladies' or Misses' Suits, Cloaks, Fur Garments or Fur Capes.

Millinery Department. IMPORTED BONNETS. ROUND HATS and TURBANS,

6th Avenue, 19th to 20th St.

MORE MONEY FOR THE FAIR.

CHICAGO ASKED FOR \$1,000,000 OF THE AMOUNT IT PROMISED-LIVE STOCK EXHIBIT.

Chicago, Oct. 10 (Special).-World's Fair Directors are now compelled to ask for \$1,000,000 of the \$5,000,000 promised by the city when the Board of Directors should have raised by subscription \$3,000, This amount has been raised, and yesterday the directors decided to make a formal demand upon the city, asking the latter to sell \$1,000,000 worth bonds within ninety days after November 1. resolutions for the request were introduced by Chairman Peck, of the Finance Committee, who has assured himself that according to the present rate of expenditure there would be a deficit of \$400,000 at the end of the year unless \$1,000,000 was received from the city. Controller May is ready to issue the

bonds whenever called upon.

Money must be paid on the contracts for the construction of the great buildings. Payments are by agreement made monthly to the contractors. Aside from the cost of the great buildings, which will be not far from \$7,000,000, the following are among the sums which have been or will be spent in preparation of the Exposition grounds: Grading and filling, 8450,000; landscape gardening, \$323,500; viaduets and bridges, \$12,500; piers, \$70,000; waterway improve \$225,000; rallways, \$500,000; steam plant, \$800.000; electric lighting, \$1,500.000; statuary, \$100, 000; vases, lamps, etc., \$50,000; lake-front adornment \$200,000; water supply and sewerage, \$600,000; other expenses, \$1,000,000; total \$5,943,500. The total expenses for organization, administration and operation of the Exposition is estimated at nearly \$5,000,000 This takes no account of the sums to be spent by the Government, the States or foreign nations.

Chief Buchanan, of the live-stock department, has Chief Buchanan, of the live-stock department, has sent about 3,000 copies of the live-stock premium list to the various fair and breeders' associations of the country, and is receiving responses which show that the live-stock exhibit at the Exposition will be something tremendous. A. E. Mansell, of England, offers a prize of \$500 for the best American-bred Shropshire ram. The State of Illinois offers \$40,000 in premiums for live stock. The Clydesdale horse-breeders offer \$5,000 extra prizes. Other dog breeders also offer extra prizes. The money prizes to be paid for live stock will amount to \$25,0000 or more. The Exposition buildings for the accommodation of live-stock will cover thirty acres. A BROTHER OF JUDGE EARL DROPS DEAD.

Utica, N. Y., Oct. 10 .- Samuel Earl, of Herkimer, brother of Judge Robert-Earl, of the Court of Appeals dropped dead in the Court House in that village about 11 o'clock to-day, while summing up the case of the People agt. ex-County Clerk Palmer M. Wood. Mr. Earl had spoken only about ten minutes, and had paused after finishing a sentence, when he sank to the floor and expired without uttering another word. He was in his sixty-ninth year and was born and has always lived in Herkimer. He was admitted to practice in 1847, and had since conducted a law business in that village, for some years in partnership with his brother. He was a director and an attorney for the Herkimer Bank, a vestryman of Christ (Episcopal) Church and in all the walks of life was a highly esteemed citizen.

His wife died about three years ago. Four chi dren,
three sons and one daughter, survive. Apoplexy, due
to the rupture of a blood-yessel upon the brain, was
the cause of death.

A BROOKLYN INDUSTRY GOING TO INDIANA. Chicago, Oct. 10 (Special).-Final arrangements have een made for the location of the Calumet Varnish Company, of Brooklyn, N. Y., at Tolleston, Ind. The company, or prooxign, N. I., at Tolleston, Ind. The company has bought five acres of land adjoining the Pittsburg. Fort Wayne and Chicago Railroad. The total cost of the plant, exclusive of the price of the land, will be \$37,500.
